Blood Donation!

BOB **Along** **BloodGram**

Blood Donation

Good Evening!

BOB WORLD HAACKATHON

I am Ayush Tiwari

And I hope you all are doing well.

Today I am going to tell you about Bloogram How its work for Blood Donation.

Current Features

- Responsive Web Design(RWD) and User Experience.
- User Friendly.
- Ratings and Reviews Section.
- Frequently asked questions (FAQs).
- Login/Signup Page
- Here Donars can see the request for a blood and Person who need a blood can see the nearby donars to his city.
- Footer and Submission form for a blood.

Features that we hope to Roll Out in the future :

- Popup function : In this feature, when our volunteers join for a noble act or anything in need a popup will come on screen then our virtual army will inform.

- BloodGram Store: Every blood donation with us earns donor rewards points in the BloodGram store! Points can be used to order donor rewards like blood center gear, gift cards, and more!.

- For further Data Security we will Blockchain Technology to secure our users privacy and virtual army.

Features that we hope to Roll Out in the future:

- Live Feed : Live feed our real time network activity feed (e.g. blood donation camps, requester live location)

- Tie Ups : Partnering with Hospitals and Blood donation outlets.

- News, Blood information and more.

- Night Mode.

Why we need Bloodgram?

- Nowadays, person who needs blood will have to travel at different blood centre's to check the availability of a particular blood match.

- Here comes the use of our website which will save time and effort and will help the person in need to get connected with a healthy donor in a short span of time.

- We are providing all neccessay requirements on our website so that people won't have to trouble anymore, anymore in search of other websites.

Give the gift of life to others
